

Nexus® 1252

For Easy Viewing of Voltage,
Current and Power

19-inch Rack Mount

Meter Assembly

- Ideal for Substation 19" Rack Mount Control Panel Applications
- Incorporates Nine Simultaneous Lines of Display
- Provides Clear and Easy Viewing of Data with No Scrolling
- Built-in Testing Switch
- Designed Specifically for Nexus® 1252 Meters
- Front Panel Download Port

Electro Industries/GaugeTech introduces a new rack assembly that offers the Nexus® 1252 advanced performance power meter and power quality recorder together with nine LED lines of display in one mountable unit.

The 19" rack assembly also features a built-in test switch and a front download port. These displays allow for 3 phases of voltage, 3 phases of amps, Watt/VAR, and PF displayed simultaneously with no need to scroll.

The three LED displays consist of the following:

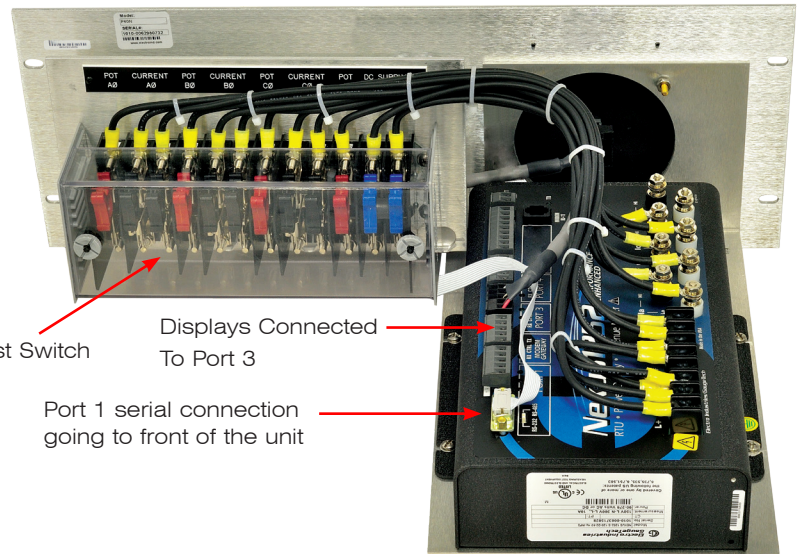

- P40N+: Master LED display providing either multifunction measurement or use as a Volts 3 line master unit.
- P41N+: LED Amps display - Slave 3 line display
- P43N+: LED Power display - Slave 3 line display

Front RS232 Port

Wiring

The displays are connected to the meter through their back serial ports. The serial port connection from the displays is connected to Port 3 of the Nexus® 1252 meter. There is a serial port connection from Port 1 of the Nexus® 1252 meter to the front of the mounting unit.

Test Switch

Displays Connected To Port 3

Port 1 serial connection going to front of the unit
